DEVELOPER INTERN

OBJECTIVE

My full name is Vo Minh Toan, a game developer intern seeking to gain practical experience and contribute to a forward-thinking game development company. With immediate experience in Java OOP, C++, and 2 years of 3D rendering. Moreover, with advanced English communication skills and having an eye for design, critical thinking, and problem-solving ability, I am carving out a career in game development, specializing in 3D open-world development with Unreal Engine
